DETAILED ACTION

1. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.

Allowable Subject Matter

2. Claims 28-54 are allowed.

3. The following is an examiner's statement of reasons for allowance: The subject matter of the independent claims could either not be found or was not suggested in the prior art of record. The subject matter not found was the indicator having a circuit in which it is positionable in an open or closed position where if the circuit is in one of the positions, it indicates that the needle protection sleeve is in an unsheathed, distal position (claim 28) and the electric circuit including a switch having a first switching element on the needle protection sleeve and a second switching element opposing it such that the electric circuit is an indicator that indicates to the user when the needle protection sleeve is in an unsheathed, distal position (claim 46) in combination with the other elements (or steps) in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
